SD-440: Ecological Economics - EUCLID

This case study provides an overview of recent work done on problem-based learning (PBL) and ecological economics: 1) work done independently by an economics graduate, and 2) a module taught at Keele University. Both elements of work used Joshua Farley's Ecological Economics: a workbook for problem-based learning. Here are some of

## Ecological Economics

The journal is concerned with extending and integrating the understanding of the interfaces and interplay between "nature's household" (ecosystems) and "humanity's household" (the economy). Ecological economics is an interdisciplinary field defined by a set of concrete problems or challenges related to governing economic activity in a way that promotes human well-being, sustainability, and justice.
