Perceptions of Discrimination. Numerous surveys have asked African Americans and other racial minorities about their experiences with discrimination in the workplace, in their search for housing, and in other everyday social settings (Schuman et al. 2001). One startling conclusion from this line of research is the frequency with which discrimination is reported.

Doctoral Programs - Graduate Center, CUNY

Racism and Health. Racism is an organized social system, in which the dominant racial group, based on an ideology of inferiority, categorizes and ranks people into social groups called “ races ” , and uses its power to devalue, disempower, and differentially allocate valued societal resources and opportunities to groups defined as inferior (13, 140).
