Economics in One Lesson - Foundation for Economic Education

Economics in One Lesson is an introduction to economics written by Henry Hazlitt and first published in 1946. It is based on Frédéric Bastiat's essay *Ce qu'on voit et ce qu'on ne voit pas* (English: "What is Seen and What is Not Seen"). The "One Lesson" is stated in Part One of the book: The art of economics consists in looking not merely at the immediate but at the longer effects of any act ...

Hazlitt. This primer on economic
principles brilliantly analyzes the seen
and unseen consequences of political and
economic actions. In the words of F.A.
Hayek, there is "no other modern book
from which the intelligent layman can
learn so much about the basic truths of
economics in so short a time."

Henry Hazlitt makes some candid economic arguments in his book called Economics in One Lesson. I will be summarizing, analyzing, and evaluating some of his arguments which consider the following: why there are differences in economic thought, why economic fallacies flourish, the broken window fallacy, and the effects of price fixing, rent controls, and minimum wage laws.

The long term economic consequences on all groups are not taken in to account. Sadly, as the author points out, is that, at the end, the poorest always pay most of the bill. Concluding, despite it first edition was written more than 70 years ago, Economics in One Lesson is as actual and as applicable today as always.
