Airbus a320 aircraft operation manual - SlideShare

The Airbus A320 family consists of short- to medium-range, narrow-body, commercial passenger jet airliners manufactured by Airbus. The family includes the A318, A319, A320 and A321, and the ACJ business jet. The aircraft family can accommodate up to 220 passengers and has a range of 3,100 to 12,000 km (1,700 to 6,500 nmi), depending on model.

The FCU320 already has on board the sockets used to connect the two EFIS (CP and FO). The EFIS are directly powered and managed by the FCU, you don't need further supply adapter or cables. The flash memory technology of the microcontroller gives you a simple way to upgrade the built-in operating program (firmware).
