The brake I made can be seen above. This was a simple fix to a re-curring issue on the lathe. So that's it. That was my refurb on the Austrian made Maximat V10 lathe. These are a great little lathe and run very quiet. They don't handle heavy handedness so if you find one, check for damage. If you don't have spare time to fix it, don't buy it.

### EMCO Hobbymaschinen Downloads

Although Emco built larger lathes, the Maximat Super 11 (with at 5.5" centre height and 25.6" between centres) was the largest machine in their range designed to appeal to both professionals and the more enthusiastic home engineer.With a hardened bed as standard it was available in both metric and English versions with a 3 mm pitch leadscrew on the former and 8 t.p.i. on the latter.
