How to Test Emergency Lights and Exit Signs

A functional test shall be conducted on every required emergency Lighting system at 30-day intervals for a minimum of 30 seconds. An annual test shall be conducted for the 1 1/2 hour duration of the test. Written records of visual inspections and tests shall be kept by the owner for inspection by the authority having jurisdiction.

Are You Testing Emergency Lighting? - BUILDINGS

Online Library Emergency Lighting Testing Quick User Guide

Annual Emergency Lighting Testing The annual test should be a full rated duration test to ensure that the emergency lights are still working and producing the acceptable level of light at the end of the test. So for example if a luminaire is rated for a 3 hour duration, then after 3 hours in an emergency situation the light should still be lit.
