eMMC FLASH Programming User's Guide - Lauterbach
Reading data/image eMMC in binary format (JTAG/ISP/Chip-Off) is a service of reading data/image NAND from target and deliver it to client. The service is non-invasive, it means that we don't make any changes to the phone (not solder anything in phone). We do not interfere in the data and not upload anything to phone - for readign process using unique VR-Table diagnostic table that allows to ...
