Don Wheeler article on MSA - Good Data, Bad Data and ...

The EMP (Evaluating the Measurement Process) method in the Measurement Systems Analysis platform is largely based on the methods presented in Donald J. Wheeler's book EMP III Using Imperfect Data . The EMP method provides visual information and results that are easy to interpret and helps you improve your measurement system to its full potential.

EMP III: Evaluating the Measurement Process - SPC Press

The EMP techniques are designed to help you answer questions you should have about your measurement system. Some of the questions from Dr. Wheeler's book, EMP III: Evaluating the Measurement Process and Using Imperfect Data, are: Is the measurement system consistent over time? What is the precision of the measurement system?

EMP III [Evaluating the Measurement Process]: Using ...

While the EMP approach can be adapted to many different data structures and data collection schemes, we will illustrate the basic EMP study using the same data collection strategy used in a gauge R&R study. A simple, fully crossed experiment is performed where two or more operators measure each of three to 10 parts two or three times apiece.

EMP III: Evaluating the Measurement Process & Using Imperfect Data by Donald J. Wheeler. EMP III is much more than a new edition of the old green book—it is a completely new treatment of the classic procedures in the first two EMP editions. It also goes beyond those procedures to include the explanations of why the procedures work.
