What are consonant clusters  
in English? Consonant ...  
You will see this consonant  
blend at the beginning of  
many English words (when  
consonant clusters appear at  
the beginning of a word,  
they are called “initial  
clusters” or “initial  
blends”). Voice out the “P”  
to sound like “puh,” and  
combine it with the “L”  
sound, which is pronounced  
by holding your tongue  
between your front teeth and  
letting go.

In linguistics, a consonant cluster (CC) is a group of two or more consonant sounds that come before (called an onset), after (called a coda) or between (called medial) vowels. Also known simply as a cluster, these occur naturally in written and spoken English – though sometimes may be altered phonetically.
