The highest glacier on Mount Everest, the world's tallest mountain, is losing decades worth of ice every year because of human-induced climate change, a new study shows.. The findings serve as a warning that rapid glacier melt at some of the Earth's highest points could bring worsening climate impacts, including more frequent avalanches and a drying-up of water sources that around 1.6 billion ...

Eve Was Shamed How British

Shame is a discrete, basic emotion, described as a moral or social emotion that drives people to hide or deny their wrongdoings. The focus of shame is on the self or the individual with respect to a perceived audience. Empirical research demonstrates that it is dysfunctional for the individual and group level. Shame can also be described as an unpleasant self-conscious emotion that involves ...
