Factoring Polynomials (Foldable) | Polynomials, Factoring ...

If a polynomial doesn't factor, it's called prime because its only factors are 1 and itself. When you have tried all the factoring tricks in your bag (GCF, backwards FOIL, difference of squares, and so on), and the quadratic equation will not factor, then you can either complete the square or use the quadratic formula to solve the equation. The choice is yours.

I teach guess and check, factor by grouping, and the box method to factor. I let my students decide which method they prefer. The grouping and box method I teach for trinomials just reinforce those methods when they have to use those to factor higher order polynomials. In classes past Algebra, I show the slide/divide as a shortcut.
