Failure Is Not An Option

Read PDF Failure Is Not An Option Mission Control From Mercury To Apollo 13 And Beyond Gene Kranz

Failure is Not an Option is a phrase associated with Gene Kranz and the Apollo 13 Moon landing mission. Although Kranz is often attributed with having spoken those words during the mission, he did not. The origin of the phrase is from the preparation for the 1995 film Apollo 13 according to FDO Flight Controller Jerry Bostick:

Failure Is Not an Option: 6 Principles That Advance ... The term we used was "workaround" -- options, other ways of doing things, solutions to problems that weren't to be found in manuals and schematics. These three astronauts were beyond our physical reach. But not beyond the reach of human imagination, inventiveness, and a creed that we all lived by: "Failure is not an option."

Failure is not an option

This "failure is not an option" credo was perfect for the life and death situation that NASA was facing. Failure meant that the astronauts on Apollo 13 would never
