Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

Fifteen Feet of Time - Free eBook (PDF)

This is his seventh technical free throw of the season, almost halfway to his career average of 18 per season -- and this one apparently cuts deep. No one knows it at the time, but with 50 games remaining, it will mark the last technical free throw that James will take in the 2016-17 season.

Holiday Time Indoor and Outdoor LED Blue Rope Christmas ...

I know that it's hard enough to accept the idea of regular sized giants and that the idea of people more than 12 or 15 feet tall is virtually unacceptable to most even who believe the Bible when it says that there were giants in those days. Science has a difficult time accepting the genuiness of footprints in rock of whatever size.
