The nude, as a form of visual art that focuses on the unclothed human figure, is an enduring tradition in Western art. It was a preoccupation of Ancient Greek art, and after a semi-dormant period in the Middle Ages returned to a central position with the Renaissance. Unclothed figures often also play a part in other types of art, such as history painting, including allegorical and religious art ...

Nude (art) - Wikipedia

An art model poses for any visual artist as part of the creative process, providing a visual reference for the human figure in a work of art. However, more than being simply the subject of art, models are often thought of as muses, a source of inspiration without whom the art would not exist. The most common types of art works that use models are figure drawing, figure painting, sculpture and ...
