A comprehensive and accessible introduction to the subject, Financial Accounting for Decision Makers focuses on the ways in which financial statements and information can be used to improve the quality of decision making. By introducing topics gradually and explaining technical terminology in a clear, friendly style, the authors cater both for accounting students, and for those studying entry-level accounting within another field.

Accounting for Decision Making | Coursera

2-4 Kimmel, Financial Accounting, 8/e, Solutions Manual (For Instructor Use Only) 8. Debt financing is riskier than equity financing because debt must be repaid at specific points in time, whether the company is performing well or not. Thus, the higher the percentage of assets financed by debt, the riskier the company.
