Valley Fire - Wikipedia

Fire in the Valley The Birth and Death of the Personal Computer, Third Edition by Michael Swaine and Paul Freiberger, narrated by Don Azevedo. In the 1970s, while their contemporaries were protesting the computer as a tool of dehumanization and oppression, a motley collection of college dropouts, hippies, and electronics fanatics were engaged in something much more subversive.

Fire In The Valley The

Fire in the Valley is one of the seminal books on the history of personal computing and still has value. Over time, most books on the subject have tended to focus on the chosen few who have become household names (especially Jobs and Gates), but at the time when this book was first written, it was not yet obvious who would be canonized in the long run.
