**Action statements - Environment**

Pigeon peas are both a food crop (dried peas, flour, or green vegetable peas) and a forage/cover crop. In combination with cereals, pigeon peas make a well-balanced meal and hence are favoured by nutritionists as an essential ingredient for balanced diets.The dried peas may be sprouted briefly, then cooked, for a flavor different from the green or dried peas.

**Pigeon pea - Wikipedia**

The blossoms are slightly sweet and crunchy and they taste like peas. The shoots and vine tendrils are edible, with a delicate, pea-like flavor. Here again, remember that harvesting blooms will diminish your pea harvest, so you may want to plant extra. NOTE: Flowering ornamental sweet peas are poisonous - do not eat.
