Transition to sustainable food systems - The European Files

While literature has noted the presence of a nutrition transition in terms of changing nutrition outcomes in Vietnam, very limited evidence linking changes in upstream food system factors to downstream diet and nutrition changes exists. Combining available data from different sources and analyzing it through a conceptual food systems framework, our study examines different pathways of ...

Food Practices in Transition: Changing Food Consumption ...

This paper examines how the new social contexts experienced by young people after leaving school are related to everyday food practices and eating habits. Findings from in-depth interviews with 31 young people aged 16-24 years studying at a college of further education in South East England are used to explore the role of new social spaces and places and their impact on young people's eating ...
