How do I Locate and Repair a Ford F-150 Temperature Sensor ...

I got a Mustang GT 5.0 and it is hard to start when cold and when it starts up the idle is rough, not smooth, idle bogs and seems like it is going to die. Once the car warms up it runs ok. When I snap the throttle it does not seem crisp and smooth. The service engine light is on and I got a code 14, pip sensor.
