Abel, Bernanke & Croushore, Macroeconomics, 10th Edition ...
New trade theory (NTT) is a collection of economic models in international trade theory which focuses on the role of increasing returns to scale and network effects, which were originally developed in the late 1970s and early 1980s. The main motivation for the development of NTT was that, contrary to what traditional trade models (or "old trade theory") would suggest, the majority of the world ...

Foundations Of International Macroeconomics
Macroeconomics (from the Greek prefix makro-meaning "large" + economics) is a branch of economics dealing with performance, structure, behavior, and decision-making of an economy as a whole. For example, using interest rates, taxes, and government spending to regulate an economy's growth and stability. This includes regional, national, and global economies.
