However, news media also play an active role in framing public policy issues. Thus, in this article, news discourse is conceived as a sociocognitive process involving all three players: sources, journalists, and audience members operating in the universe of shared culture and on the basis of socially defined roles.

Amazon.com: Framing in Discourse (9780195079968), Deborah ...
Framing in Discourse was a required reading for one of my linguistics classes this year. I thought the research presented was, for the most part, interesting. This text was about how expectations and the framing of conversation changes an interaction. I really enjoyed the papers on gender and cultural differences in framing within different contexts.

Framing (social sciences) - Wikipedia
I would say that framing analysis (FA) is fundamentally a type of discourse analysis (DA) - it is after all an analysis of one's (or several) discourse. As mentioned above by other before me, DA is an umbrella term for a whole gamut of analytical approaches, all of which share the common denominator of analyzing discourse.
