Civil law systems, and France's in particular, usually go back to the Napoleonic Code laid down in 1804, although they are ultimately inherited from Roman law. Common law systems go back to the legal systems that developed in medieval England. Before the invasion of William the Conqueror in 1066, England had no centralized legal system.

The French legal system in a nutshell - France

France is a civil law system which means it places a greater emphasis on statutes as found within various codes, instead of case law. The idea of stare decisis does not come into play in civil law systems as each case is decided on an individual basis according to how it relates to the codified law and how the judge chooses to interpret that law.

The Layout of the French Legal System - French Legal ...

In academic terms, French law can be divided into two main categories: private law and public law. This differs from the traditional common law concepts in which the main distinction is between criminal law and civil law. Private law governs relationships between individuals. It includes, in particular: Civil law. This branch refers to the field of private law in common law systems. This branch encompasses the fields of inheritance law, civil law, family law, property law, and contract law. Comm
