Food First Blog | FDA Launches Food Safety Plan Builder to ...

The user is taken through a series of sections (tabs) in the application that prompt the user to answer questions and/or fill in information specific to their business and facility. Once all the tabs have been completed, the file may be saved or printed, and the firm will have a food safety plan to use in its operations and to provide when the FDA conducts an inspection.

Medication Guides | FDA

FIS was created, in part, in response to the Bioterrorism Act of 2002, which gave high priority to improved information management to help protect the food supply. The Act requires that FDA develop two systems: one to support the registration of facilities that manufacture, process, pack, or hold food products intended for consumption in the United States and one to receive prior notice before ...
