### **Insights | Future Cities**

Today's cities are larger and more diverse than ever. More than half of the world's population now lives in urban centers, and this proportion is expected to increase to nearly 70 percent by 2050. 3 While urbanization has helped improve living conditions for millions of people around the world, there are often chronic economic and social disparities among city dwellers.

### **Dialogue 34 | Gensler**

While smart cities earlier focused on connecting infrastructure for better insights, the spotlight is slowly shifting to better engaging governments, citizens, and businesses with the goal of providing improved city services and a higher quality of life. What exactly is Smart City 2.0?

### **Home - Future Cities Catapult**

Gensler's mission is to use design to shape the future of cities, and that starts with shaping human experience. About 3.6 billion people live in urban areas now, and in our global workplace practice, it's our responsibility to create places for them that are healthy, connected, and socially responsible.
