Cartography - Wikipedia
Cartography (from the Greek χάρτης (khartēs), "papyrus, sheet of paper, map"; and γραφειν (graphein), "write") is the study and practice of making and using maps. Combining science and art, cartography builds on the premise that reality (or an imagined reality) can be modeled in ways that communicate spatial information effectively.

Cartography (/ k ʰər ˈt ʰər ˈf i /; from Greek χάρτης (khartēs), "papyrus, sheet of paper, map"; and γραφειν (graphein), "write") is the study and practice of making and using maps. Combining science and art, cartography builds on the premise that reality (or an imagined reality) can be modeled in ways that communicate spatial information effectively.
