Ten Commandments of Geriatric EM Care
American College of Emergency Physicians, American Geriatric Society, Emergency Nurses Association, and The Society for Academic Emergency Medicine (2013). Geriatric Emergency Department Guidelines Care of Older Australians Working Group on behalf of the Australian Minister ' s Advisory Council (AHMAC), Age-Friendly principles and practices: managing older people in the health service environment.

Geriatric Emergency Medicine: Principles & Practice
Geriatric Emergency Medicine: Principles and Practice was written with the goal of improving the care of elderly patients in academic and community emergency departments (EDs). Its publication is timely—the first " baby boomers " have approached Medicare age, and the growing health care needs of older patients have prompted the creation of EDs designed with their special needs in mind.

Geriatric Emergency Department Intervention (GEDI) ...
As the global geriatric population continues to grow, an increasing proportion of people reporting to emergency departments are elderly. The work-up of these patients uses more time and resources than that of younger patients, and is complicated by the fact that acute disease often presents more subtly, without the outward manifestations typically seen in younger patients.

Geriatric Emergency Medicine edited by Joseph H. Kahn
Teaching is based on the principles of "Case Method in Practice" (Christensen Center for Teaching & Learning, Harvard Business School). This is described as a method that equips practitioners in managing uncertainty and (we believe) complements the principles of managing older people with non-specific multimorbidities presenting to complex care settings, such as the Emergency Department.
