The United States Postal Service (USPS) requires residential mailboxes to conform to a number of standards and regulations. The standardization of mailboxes helps to ensure the safety of mail carriers and the items they deliver. While some rules apply to all mailboxes in general, there are separate, specific regulations for locking, package or wall mount mailboxes.

A Guide to USPS Mailbox Regulations

A 19-inch rack is a standardized frame or enclosure for mounting multiple electronic equipment modules. Each module has a front panel that is 19 inches (482.6 mm) wide. The 19 inch dimension includes the edges or "ears" that protrude from each side of the equipment, allowing the modules to be fastened to the rack frame with screws or bolts.

19-inch rack - Wikipedia

The user portals are customized according to customer brand identity, linking users to manage their accounts, access specific information, communicate with all stakeholders, and view and print reports. Access is controlled by role, function, security level and administrative profile, delivering a unique, secure online experience. Prudential and GIA documents may be ...
