A spell is a one-time magical effect. Spells come in two types: Arcane (cast by bards, sorcerers, and wizards) and; Divine (cast by clerics, druids, and experienced paladins and rangers); Some spellcasters select their spells from a limited list of spells known, while others have access to a wide variety of options.

J - Wikipedia

In solid-state physics, a band gap, also called an energy gap, is an energy range in a solid where no electronic states can exist. In graphs of the electronic band structure of solids, the band gap generally refers to the energy difference (in electron volts) between the top of the valence band and the bottom of the conduction band in insulators and semiconductors.
