## **ginormous cells and organelles word search answers - Bing**

Eukaryotic cells are cells with a nucleus.

The nucleus is an organelle that is  
surrounded by a double membrane called  
the nuclear envelope. The nuclear  
envelope separates the contents of the  
nucleus from the rest of the cell.

Eukaryotic cells also have a cell  
membrane (plasma membrane),  
cytoplasm, cytoskeleton, and various  
cellular organelles.
