Global Capitalism -- Critiques from Sociologists

Global capitalism is capitalism that transcends national borders. It is known as the fourth epoch of capitalism in recognition of the three periods or epochs that came before it. To give this some

history of how capitalism has developed into the global system we have today:

Download Global Capitalism: A Sociological Perspective ...

Miguel Centeno and Joseph Cohen define capitalism as a historically-evolving and socially-constructed institution, rooted in three core economic activities trade, finance and marketing and identifying that any new economic system will need to surmount inequality, governance, and environmental sustainability.

What Is the Definition of Capitalism?

Global capitalism is the fourth and current epoch of capitalism. What distinguishes it from earlier epochs of mercantile capitalism, classical capitalism, and national-corporate capitalism is that the system previously administered by and within nations, now transcends nations, and thus is transnational, or global, in scope. In its global form, all aspects of the system, including production, accumulation, and governance, have been disembedded from the nation and ...
