Global claims: how to make them and how to defend them ...

In principle, a contractor does not need to show, when putting forward a global claim, that it is impossible to plead and prove cause and effect in the normal way. If there are contractual restrictions on global claims, then they may have an impact. Otherwise, the contractor must prove the balance of probabilities.

Global Claims in Construction: Ali Haidar: 9780857297297 ...

Claims commonly arise between the parties to construction contracts. This can be as a result of problems such as delays, changes, unforeseen circumstances, insufficient information and conflicts. Claims might be made for things such as loss and expense, extension of time and damages.

Causation and global claims under construction contracts ...

Apportionment in relation to a global claim involves apportioning part of the global loss claimed to the causative events for which the employer is held responsible. The issue of apportionment arose in the Scottish case of *John Doyle Construction v Laing Management (Scotland)* (2002).

Global Claims in Construction | Ali Haidar | Springer

Global claims commonly arise where construction projects are in delay. Delays may be caused by a myriad of factors, including bad weather, delays to the works instructed by the employer, problems with the design of the building and/or poor workmanship.

Contract claims in construction - Designing Buildings Wiki

Time bars in construction contracts and global claims page 26. This is a fundamental requirement of the NEC3. The Contractor must give notice of compensation events within eight weeks of becoming aware of the event.

Concurrency, global claims and loss and/or expense

The expressions "global" or "total costs" claims refer to claims by contractors or sub-contractors which identify numerous potential or actual causes of delay and/or disruption, a total cost incurred for the project and a claim for the balance between that cost and sums already paid.

Global claims in construction disputes | Practical Law

Global claims are referred to as "total cost claims" in the USA, and in that regard there is also the "modified total cost claim" whereby the contractor divides the additional costs into separate elements and claims for only particular elements on a global basis, thus the methodology of total cost claims need not be applied to the whole of the claim.

Global claims: a brave new world? - Kennedys Law

Global claims: Offend the generally accepted legal position as to what a contractor must prove in order to succeed with a claim, which has the effect of reversing the burden of proof. Ignore other explanations of why an additional cost might have been incurred. Often fail to identify the cause of the cost.

Ramskill Martin - Global Claims Article 1 – What are ...

A "global claim" is a class of claim, often advanced under construction contracts, in circumstances where the Contractor (or Subcontractor) (as plaintiff) alleges that it has suffered loss as a consequence of multiple interacting events for which the Principal (or Head Contractor or Employer) (as defendant) is responsible.
