*Warning: Caution When Multiplying or Dividing Variables. One very important implication of this rule is: You cannot divide by an unknown (i.e., a variable) unless you are sure of its sign since you do not know whether you must flip the sign of the inequality. There are plenty of instances where you will know the sign of a variable and as a result, you can multiply or divide and know for sure ...*

*Homework Guidelines: English teachers tell their students explicitly how to format their papers: what fonts, what page margins, what style guides, etc. Math teachers, on the other hand, frequently just complain amongst themselves in the faculty lounge about how messy their students' work is. Meanwhile, their students wonder why they've lost points on homework and tests.*
