Mathematical Olympiad in China : Problems and Solutions
IMO Training 2008: Graph Theory. Section 3: Friends, Strangers and Cliques. Given a graph G , a clique in G is a subset of vertices of G where every pair of vertices in the subset is joined by an edge. This becomes important in certain math olympiad problems involving friends and strangers.

The graph represents a set that has binary relationship... The degree of a vertex v in a graph G , denoted by $d_G(v)$, is the number of edges of G incident to v ,...

IMO Training 2008: Graph Theory - University College Cork

Graph Theory Po-Shen Loh 24 June 2008 At first, graph theory may seem to be an ad hoc subject, and in fact the elementary results have proofs of that nature. The methods recur, however, and the way to learn them is to work on problems. Later, when you see an Olympiad graph theory problem, hopefully you will be sufficiently familiar with graph-theoretic
