Print?’ Rotogravure printing or just simply gravure printing is a type of intaglio printing process which uses a rotary printing press.

### **Gravure Printing process**

Rotogravure (or gravure for short) is a type of intaglio printing process, which involves engraving the image onto an image carrier. In gravure printing, the image is engraved onto a cylinder because, like offset printing and flexography, it uses a rotary printing press. Once a staple of newspaper photo features, the rotogravure process is still used for commercial printing of magazines ...
