MOBILE FOOD UNIT OPERATION GUIDE Guidelines for Food Service

If the vomit was gray in color it should be nothing to be concerned about as long as it is not showing blood or coffee ground material. It is the combination of your stomach acid and bile mixing with the food that you ate. You may have had a reaction to the pain medication which caused the vomiting.

What does grey vomit mean - Doctor answers on HealthcareMagic

Both chunky and granular vomit are often (though not always) related to food or something your dog has ingested. Chunky vomit is vomit where you can still identify food parts—an indication that the food brought up has not been in the stomach very long. “The chunks tell us that the food has not had much time to digest,” Werber says.
