Diamond Cuts Chart of Shapes & Sizes | DiamondCuts.com  
Diamond Clarity. What is diamond clarity? Diamond clarity is a grade on a scale from Flawless to Included, which measures the amount and locations of inclusions in a diamond. An inclusion is an internal or external characteristic or flaw which occurs during the Earth's natural process of diamond formation. The majority of diamonds contain inclusions that are undetectable to the unaided eye.

The Ultimate Guide to Round Brilliant Cut Diamonds (With ...  
Facets – the surfaces of a diamond that can be polished; Table – largest facet at the top; Culet – facet located at the bottom tip which is not always visible to the naked eye (preferable) Depth ratio – height of the stone when measured from table to culet; Girdle – narrow band found on the widest point of a diamond
