Ethical egoism is the normative ethical position that moral agents ought to act in their own self-interest. It differs from psychological egoism, which claims that people can only act in their self-interest. Ethical egoism also differs from rational egoism, which holds that it is rational to act in one's self-interest.

A third argument, like Moore's, claims that ethical egoism is inconsistent in various ways. Say ethical egoism recommends that A and B both go to a certain hockey game, since going to the game is in the self-interest of each. Unfortunately, only one seat remains. Ethical egoism, then, recommends an impossible state of affairs.

Ethical egoism is not to be confused with psychological egoism, which is a theory of human nature (i.e., a theory of how human beings are by nature). Ethical egoism, by contrast, is a normative ethical theory, like utilitarianism. It comes in two varieties: act-egoism and rule-egoism. This handout concerns act-egoism.

Handout 5: Ethical Egoism 1. Ethical Egoism One common assumption is that the interests, needs, and happiness of other people should factor in our moral evaluation of things. If we accept this assumption, we think that our moral evaluation of an action involves balancing our self-interest against that of others. What is morally right or wrong depends
