**Harley Davidson quick and easy code check  
When I took it for a spin this morning, I noticed the check engine light. I was baffled. After research, I came upon this thread and it SO helped. I'm assuming it was due to me turning the ignition on and/or it was a pinched wire (due to re-zip tying the console wires). In case anyone else comes across this, here were the codes I received:**

### Engine Light ...

The check engine and temp lights come on after a few miles. I checked the codes and got codes P1019 and U0184. I also checked the fans come one when I test them but when needed. I changed the temp sensors in the head and radiator in the left lower fairing. The U0184 code went away but the light still comes on and I still get code P1019. Reply
