INTRODUCTION. During our relatively short history on Earth, humans have acquired an amazing number of parasites, about 300 species of helminth worms and over 70 species of protozoa ().Many of these are rare and accidental parasites, but we still harbor about 90 relatively common species, of which a small proportion cause some of the most important diseases in the world, inevitably, these are ...

Fasciola hepatica — Wikip é dia
Die Trichinellose (auch Trichinose) oder Trichinenkrankheit ist eine durch die Trichinen (eine Gattung der Fadenw ü rmer) hervorgerufene parasit ä re Infektionskrankheit ().Sie wird vor allem durch Trichinella spiralis und den Verzehr von rohem Fleisch (meist Schweinefleisch) ü bertragen. Die Trichinellose unterliegt in der Europ ä ischen Union der Meldepflicht.
