Dinosaurs and the Bible | Answers in Genesis

Dinosaurs are a diverse group of reptiles of the clade Dinosauria. They first appeared during the Triassic period, between 243 and 233.23 million years ago, although the exact origin and timing of the evolution of dinosaurs is the subject of active research. They became the dominant terrestrial vertebrates after the Triassic–Jurassic extinction event 201.3 million years ago; their dominance continued through the Jurassic and Cretaceous periods. The fossil record demonstrates that birds are ...

The Laurie Berkner Band - We Are The Dinosaurs (Official Video)

If dinosaurs evolved from amphibians, there should be, for example, fossil evidence of animals that are part dinosaur and part something else. However, there is no proof of this anywhere. In fact, if you go into any museum you will see fossils of dinosaurs that are 100% dinosaur, not something in between.
