Hobson X Bolt Conxtruct
Material: Special alloy steel according to DIN267. Can be used at elevated temperatures up to 300 deg C. Re-usabale with locking ability maintained. Will not loosen or unscrew even under the most severe transverse jarring and vibration. Fatigue resistant design in thread run-out and under-head fillet.

Hobson Hex Bolt and Nut Commercial
XBolts are single unit screw type anchors that are used in solid concrete applications. Fixing is achieved by screwing the anchor into the hole. As it is screwed in, It creates its own undercut by tapping the concrete hole. The cutting and locking mechanism without expansion, enables the anchor to be used in close spacing...
