HiFi Audio and Your PC - A Definitive Guide | Audiogurus  
You've read our picks, which we defended as best we could. Now, what about some more of your thoughts? Leave us a comment on the Part-Time Audiophile website. Meanwhile, look for even greater coverage of everything hi-fi (and a few things not) in 2018 as the PTA team hauls equipment through the door to test and descends on the major shows.

### Speaker Cable Guide | Space Hi-Fi

Speaker spikes are commonly used by many hi-fi enthusiasts because they reduce physical contact to an absolute minimum. Spikes can be placed under floor-standing speakers or speaker stands. You may even place the spikes between the speaker and the stand, too, and they can be found quite cheaply.

### Hi-fi DIY - Speaker Setup

Building your first hi-fi system? Here's what you'll need to include in your first high-quality sound system. Let us set the scene: You've been thinking about investing in some high-quality audio equipment for some time now. You've done a LOAD of research, mulled over all the options and ...

### Choosing Hi-Fi Speakers. - Keith

Speaker placement is hugely important to how your system sounds in your room. So important in fact that I have chosen to tackle this issue before anything else. Within reason, budget speakers placed well can outperform much higher quality speakers that have been placed with little care. I know there are other speaker placement guides but having read pretty much all of them, this is still what
