2018 Holden Captiva engines. The 2018 Holden Captiva will come with three engines in the offer. If you are for some more fuel-efficient version, there is a 2.2-liter diesel unit. It is good for about 160 horsepower and 265 pound-feet of torque. Besides a decent amount of power, this engine also features great fuel economy.

Recalls and faults: Holden CG2 Captiva (2011-on)

In December 2015, a recall was issued for Holden CG Captiva vehicles that were powered by 2.0-litre turbo-diesel engines and manufactured from 28 December 2006 to 28 February 2008. In these vehicles, the rocker arm bearings in the engine may fail after prolonged exposure to degraded oil; failure of the rocker arm bearing could cause a reduction in engine power or the vehicle may stall.

Recalls and faults: Holden CG Captiva (2006-11)

The Captiva is powered by the Australian (Holden)-built 3.2-L Alloytec V6 engine mated to a five-speed automatic transmission, featuring Active Select. This engine is also shared by the Captiva's Opel Antara
