Honeywell's high-performance, high-power engines are reliable, time-tested, require less maintenance due to a simple, rugged design, operate in the harshest environments, and are fuel efficient.

*C7061 A/F - Honeywell*

The damage fraction for a minor cycle identified in the Honeywell Alert Service Bulletins is based on landings to normal ground-idle engine speed reductions without an engine shutdown. Any engine operation, such as a touch-and-go maneuver with an engine speed reduction to ground idle during touch-down, counts as a minor cycle.
