Honors Geometry 2015-2016 - MR. CALISE'S MATH WEBSITE

This proof-based geometry course, based on a popular classic textbook, covers concepts typically offered in a full-year honors geometry course. To supplement the lessons in the text book, videos, online interactives, assessments and projects provide students an opportunity to develop mathematical reasoning, critical thinking skills, and problem solving techniques to investigate and explore geometry.

SUMMER READING AND MATHEMATICS PROJECTS

Hands-on activities are an important key to making that happen. My students learn best when the lessons are fun, innovative, and challenging. The school is in a disadvantaged Bay Area suburb with a high concentration of English Learners. Group activities give them the opportunity to work together to learn new skills and concepts. My Project

Honors Geometry - Vintage High School Pages. Home; ... Triangle Artwork Project Chapter 4: Congruent Triangles Project . Triangle Artwork Due Date: Thursday November 6 th 2014.

Introduction: For this project you will work individually creating an art project using nothing but triangles. You will create a piece of original artwork on a large ...

Honors Geometry Projects For High

Honors Geometry Course Description Students apply alternate ways of reasoning mathematically, beyond Algebra 1, including analytical and spatial reasoning to more complex problems. They apply what they know about two-dimensional figures to three-dimensional figures in real-world context and deepen their understanding of shape and shape relationships.

Triangle Artwork Project - Honors Geometry - Vintage High ...

Consider this thought experiment: What if we eliminated separate Honors and regular math classes? For example, instead of there being an Honors Geometry course and a regular Geometry course, we mixed all students together so there was just one type of Geometry course that every Geometry student took. There ' s a catch though: any of these Geometry students may earn Honors credit for the course ...

What's the Difference Between Honors and Regular Math ...

Honors/GT Geometry. Honors Geometry is designed for 10th grade students who have successfully passed the Algebra I High School Assessment in the 8th grade and then completed Honors Algebra II in the 9th grade with a "B" or better. The difference between GT and Honors Geometry is in GT the students move a little faster and answer slightly more complex problems.
