It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' textbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator – a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

Houghton Mifflin Math Practice Workbook

The book was a great workbook to practice the lessons in the textbook. Of course there was some writing in the workbook as it was purchased used, but the writing was easily erased by me prior to my child using the book so it was as good as new. The workbook had great activities to practice the math lessons that were in the book.

Houghton Mifflin Math (C) 2005: Practice Workbook Grade 1 ...

I use this book to homeschool my fourth grader, and as far as math books go, the Houghton Mifflin series has been my favorite. The worksheets are easy to understand and complete, and I would highly recommend to purchase the workbook along with the math book.
