How To Build A Model

To build a miniaturized replica with accurate dimensions and proportions, start by finding the height and width of the building you want to model. Once you've done that, pull up a modeling scale conversion chart online and use the figures listed to translate your recorded measurements to a given scale, which you'll then use to build your model.

How to Build a Model Ship: 13 Steps (with Pictures) - wikiHow

The model scale is most often expressed as a simple fraction: 1/24 scale means the model is 1/24 the size of the full-size subject. In other words, in 1/24 scale you would need 24 Chevy models parked bumper to bumper to equal the length of one Chevrolet. Like any fraction with 1 for a numerator, the greater the denominator the smaller the object.
