Every day, include some questions you require every student to answer. Find a question you know everyone can answer simply, and have the class respond all at once. You can ask students to put a finger up when they're ready to answer, and once they all do, ask them to whisper the answer at the count of three.

Education Tax Deductions and Credits to Maximize Your Tax ...

Historically, student engagement has been thought of in terms of students “paying attention”: raising hands, asking questions, and making eye contact. Of course, we know now that learning can benefit from learner self-direction and self-initiated transfer of thinking as much as it does simple “engagement” and participation.

6 Strategies to Increase University Enrollment - Modo Labs

Royall & Company tests show student-focused messaging can result in a 50 percent increase in response rate over institution-centered copy. Student-centered copy, for example, would tell prospective students that they can be the architect of their own education, as opposed to talking about the institution's flexible curriculum. Engage parents.
