The 5055 is a wireless printer and I had difficulty getting my laptop to print on it. While troubleshooting I made online contact with the HP Help Desk and soon was on the phone with someone I assumed was an HP Help Desk Representative. He asked to take control of my laptop remotely and I let him do so.

If you have Luma custom firmware, I highly recommend using the Quick Install guide; this is a simple drag-and-drop process, and doesn't require you to build anything. If you don't have custom firmware, you can either head over to <https://3ds.guide/> to get Luma set up, or play via the homebrew channel and HANS, which you can find out about here ...
