Try the Vertica Analytics Platform | Vertica

Since you did not explicitly create them, Vertica allows them to be dropped with the table. If, however, you explicitly create a projection by hand or using DBD, it will require that

Access Free Hp Vertica Essentials Drop

you drop those first or use cascade. A couple of notes. First, the create projection should be the projection name, not the table name.

Hp Vertica Essentials Drop

Vertica's distributed architecture allows fast query processing, and it is a highly fault-tolerant architecture, thus making it one of the most sought-after MPP databases today. HP Vertica Essentials will help you to learn day-to-day administration activities in a step-by-step format.

Optimizing DELETE performance - Vertica Forum
"HP Vertica Essentials" is

Access Free Hp Vertica Essentials Drop

just one more example of this quantity-over-quality approach. (And so is one of the other reviews). The book is transparently inadequate, and unnecessary, given that Vertica documentation - helpfully split into thematic volumes - is only a Google search away.

Summary - HP Vertica Essentials

Now all you need to do is to use the DROP_PARTITION metafunction to remove the table partitions containing the old data. This is much more efficient than using a DELETE query, because drop partitions removes the data at the storage container level. Basically, HP Vertica just deletes the storage containers containing the data partitions.
